## EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dennis P. Clarke on September 20, 2004

### IN THE CLAIMS:

Cancel claims 11-30, without prejudice.

### REMARKS

Claims 11-30 are canceled since they were drawn to the non-elected invention as set forth in the Office Action of July 28, 2003.

### REASONS FOR ALLOWANCE

The following is a statement of reasons for the indication of allowable subject matter:

Applicant's clarification of the claimed composition is persuasive. The compounds are species within the generic formula of U.S. Patent 5,455,277. However, the compositions are novel and unobvious since they have a different utility, and are so claimed, than disclosed or taught by the prior art.

Applicant's argument that claims 21 to 30 should be examined along with claims 1-10 is not persuasive since the compositions claimed therein are not within the scope of claims 1-10. These claims are drawn to compositions containing heterocyclic compounds not within claims 1-10.

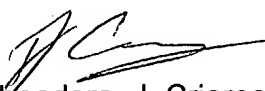

Art Unit: 1617

Claims 1-10 are allowable.
